

Animal Advisory Commission Report

Q1 2021

This report is intended to give a high level overview of Austin Pets Alive!’s lifesaving operations each quarter, with a focus on APA!’s impact on Travis county through our partnership with Austin Animal Center.

Summary: APA! Continues to take a higher percentage of AAC animals than in the previous year, same months. While AAC intake is down, APA! has also stepped up to help community members with more lost pets, pets in need of rehoming and pets in need of assistance to stay in their homes.

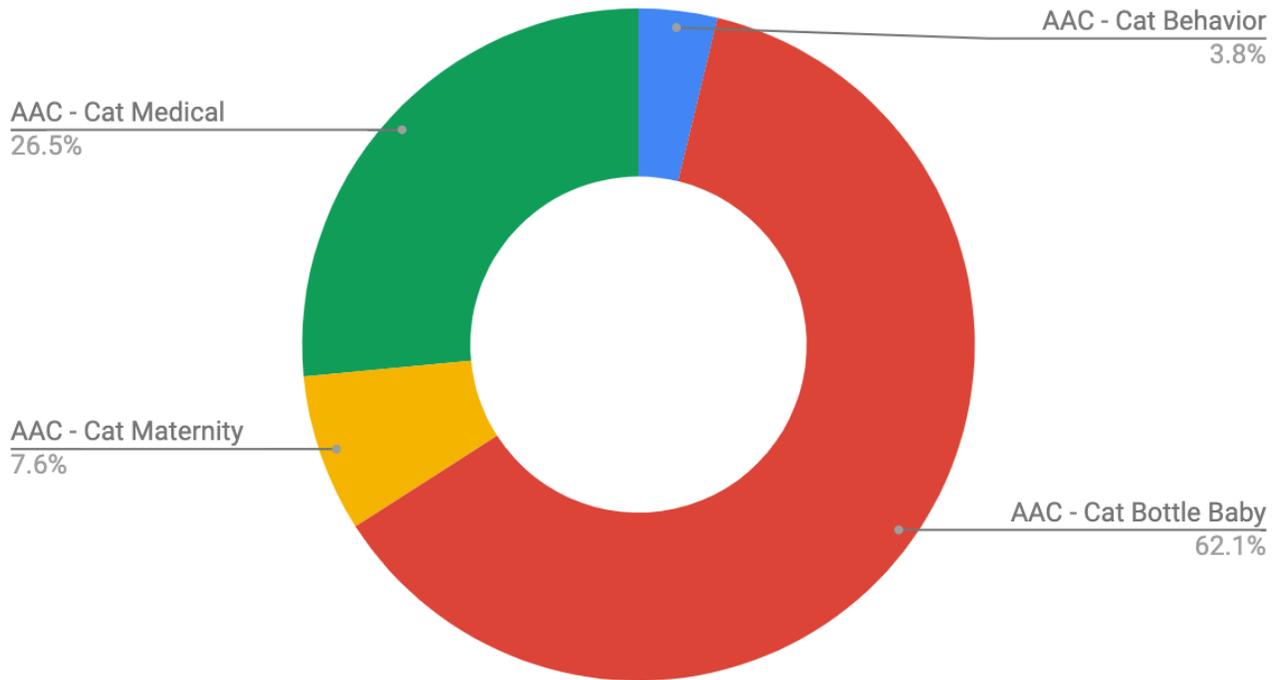

During Winter Storm Uri, APA! took on a critical role in helping our community members while AAC was closed to the public by giving supplies to those in need to keep animals warm, setting up a mutual aid site to help people find physical help locally.

We also helped our state move 1,000 animals who needed transportation to safer areas of the US by arranging transport, serving as a pitstop and communicating across many shelters. **See graphics at end of the report for our community and Texas work.**

Live Release Rate Calculations

Live Release Rate is calculated as AACs total live outcomes, which is all outcomes less Died, Euthanasia, Disposed, and Missing divided by total outcomes for the period.

AAC Live Release Rate				
	Jan - 2021	Feb - 2021	Mar - 2021	Q1 - 2021
AAC Live Outcomes	574	379	579	1532
AAC Total Outcomes	598	391	605	1594
AAC Live Release Rate	96%	97%	96%	96%

AAC Live Release Rate without APA attempts to show what AAC might look like without transfers to APA. While there is no perfect way to calculate this metric since it is impossible to know what would have happened were these animals not pulled by APA, this is one way to illustrate APA's effect on AAC live outcomes.

AAC Live Release Rate w/out APA Transfers				
<i>([AAC Live Outcomes] - [AAC to APA Transfers]) / [AAC Total Outcomes]</i>				
	Jan - 2021	Feb - 2021	Mar - 2021	Q1 - 2021
AAC Live Outcomes	574	379	579	1532
AAC to APA Transfers	88	54	165	307
AAC Total Outcomes	598	391	605	1,594
AAC Live Release Rate w/out APA	81.3%	83.1%	68.4%	76.9%

The AAC + APA Community Live Release rates combines AAC and APA live outcomes for the period (again total outcomes less Euth, Died, and Disposal) and divides that by the total outcomes for the period.

AAC + APA Community Live Release Rate				
<i>([AAC Live Outcomes]+[Live Outcomes of AAC to APA Transfers]) / ([AAC Total Outcomes]+[Total Outcomes of AAC to APA Transfers])</i>

AAC Total Outcomes	598	391	605	1,594
